Login with your provided username and temporary password.

Once you are logged in, you will see a greeting in the upper right of the screen.

If you put your mouse arrow over your name, it will open up a pop-up window where you can then edit your profile. Please do this!!
When you click on the Edit My Profile link you will be able to verify and change your contact information, and importantly, indicate your areas of interest, as well as other options.

And note that you can change your password!
Most of the new website is available without being logged in, however meeting presentations, grant applications, etc., will require that you be logged in. If you try to enter an area or request a document that is available to members only, you will automatically be taken to the login/join/renew screen.
