Don’t Remember Your Password – Here’s What to Do

When you are not logged in, you won’t see the “Howdy” greeting at the top right of the screen.

Even if you don’t know your password, click on the “Sign In” button.

This presents the login screen.

Indicate you don’t know your password. This opens the password reset screen.
After responding to the email message you will receive and noting the username indicated in the message, you can then go to the home page and login. When you do so, your login is confirmed when you see the “Howdy” message.
